

TIGHT AV VSB-600AF

IMAGE QUALITY UP TO 4K

The sound bar's camera has 4K resolution, giving your meetings that crystal clear look.

AUDIO CAPTURE UP TO 6M

The built-in microphone has a range of 6 metres, making sure everyone is heard.

PLUG-AND-PLAY VIA USB

No driver install is necessary. Just connect the sound bar to your computer and start using.

The camera's AI looks for the participant's face to create the best framing.

When new participants join the meeting, the camera automatically adjusts the frame.

With voice tracking enabled, the camera focuses on the participant currently speaking.

The camera's 120° wide-angle lens frames the entire room, making sure everyone is seen.

ROOM SIZE:

We recommend installing the VSB-600AF in small to medium rooms for optimal results.

COMPATIBLE WITH ALL VIDEO CONFERENCING APPLICATIONS:
